## KEY TO CATALOGING

### DEFINITIONS

**SPECIMEN:** An archival printing sample of a finished item, such as a stock certificate, banknote or stamp that is printed usually with "000000" serial numbers and may have "Specimen" overprinted on it and be punch canceled to invalidate it and prevent its use surreptitiously. Specimens were kept for a number of reasons, though usually as samples to give out to prospective customers to give them an idea of the type and quality of the work that the printing company was capable of doing. Usually specimens were printed in limited amounts at the beginning of a printing run to evaluate the quality of the printing work and color combinations at an early stage, rather than have an entire production run rejected due to some minor flaw that was not found until after the printing was completed. A specimen is similar to the final product, printed on the same paper and in the same color.

**COLOR TRIAL SPECIMENS:** Sometimes specimens would be printed in numerous color combinations not used on the final note for evaluation before a final printing. These are usually extremely rare.

**PROOF:** An initial pull or impression from a plate or die for evaluation of text, vignette, engraving, and esthetic appeal and to check for any errors or faults. These were usually printed on india paper mounted on card or printed on some form of paper or light card. The amount of proofs printed is usually extremely small and usually number only a handful. Proofs allowed the printing company to evaluate the quality of the item being printed without having to go to the expense of making final plates and finding out small errors that could have been repaired at an earlier stage. Usually, proofs are single impressions of banknotes, stamps, vignettes, etc. Anything that was made into a plate, such as a sheet of 100 stamps could have had proof impressions taken from it. These would be called plate proofs (for multiple images) versus die proofs (usually of a single or small amount of images).

**COLOR TRIAL PROOF:** A proof printed in a color other than the issued color.

**ESSAY SPECIMEN or PROOF:** A proposed design that was not used but may be similar or even totally different to a final approved design. An artist, engraver or company may have proposed a number of different designs and color combinations to a client for his approval. If a design is rejected and never used, it could be called an essay.

**PRODUCTION MATERIAL:** Material found in files used in the production of security printed documents, banknotes, stamps and such. It may include correspondence, photographs, artwork, and signature samples, samples of other printed items that are marked up with corrections as well as proofs, specimens, essays, models, mockups and issued final items.

**MODEL:** A proposed or final design that may include original artwork, pieces of design elements such as borders, titles, vignettes, corporate seals, undertints and possibly portions of photographs. Before an engraved item was made, a design had to be decided on. This portion of the design process allowed for the artistic skills of the engraver or design department to be exhibited. Before the "digital age", banknote engravers and designers would cut up portions of other engraved items and re-apply them in a different form or design to come up with a unique new stamp, banknote or certificate. Often, all new engravings or "vignettes" of people or scenes would be engraved first to include in the new "work of art", and other times, portions of different completed items would be "borrowed" to use on a newly designed item. All models are rare and almost all of them are unique.

Description Abbreviations I/C = Issued and Cancelled; I/U = Issued and Uncancelled; POC's = Punched out cancels

- 220 Litzmannstadt Ghetto. 1940 Issued Concentration Camp Scrip Note.** Germany. 1940. Issued 50 Mark note, Black on light blue, red specimen overprint, S/N 028854, Fine condition. The \_öd\_ Ghetto or Litzmannstadt Ghetto was a Nazi ghetto established by the German authorities for Polish Jews and Roma following the Invasion of Poland. It was the second-largest ghetto in all of German-occupied Europe after the Warsaw Ghetto. Situated in the city of \_öd\_, and originally intended as a preliminary step upon a more extensive plan of creating the Judenfrei province of Warthegau, the ghetto was transformed into a major industrial centre, manufacturing war supplies for Nazi Germany and especially for the Wehrmacht. The number of people incarcerated in it was increased further by the Jews deported from the Third Reich territories. On 30 April 1940, when the gates closed on the ghetto, it housed 163,777 residents. Because of its remarkable productivity, the ghetto managed to survive until August 1944. In the first two years, it absorbed almost 20,000 Jews from liquidated ghettos in nearby Polish towns and villages, as well as 20,000 more from the rest of German-occupied Europe. After the wave of deportations to Che\_mno death camp beginning in early 1942, and in spite of a stark reversal of fortune, the Germans persisted in eradicating the ghetto: they transported the remaining population to Auschwitz and Che\_mno extermination camps, where most were murdered upon arrival. It was the last ghetto in occupied Poland to be liquidated ..... Est. \$120-200

- 614 Andrew Carnegie Letter & Corresponding Lockheed Historical Context** CA. In 1900, Berton Rodman was driving near Santa Barbara, California, when he saw a man stuck in the mud along the side of the road. When he stopped to assist, he saw that the man driving the moored vehicle was none other than Andrew Carnegie. Upon helping the car exit the mud, Carnegie gratefully offered Rodman the Carnegie Medal, awarded to those who have risked their lives in saving or attempting to save others. Rodman refused, despite Carnegie's insistence. Rodman and Carnegie went on to become friends, with Rodman working as his chauffeur for a brief time. Lot includes a 1910 letter (including autograph) from Andrew Carnegie to his colleague, Chas. L. Taylor, remarking on how much he enjoyed having Rodman as his chauffeur, "I found him in all respects perfect, never had a more delightful experience..." It was through Carnegie that Rodman met Chas. L. Taylor, who was then the President of the Carnegie New Fund Commission. The two men went into business together, and formed the Western Machine and Foundry Company in 1911, with Rodman as President, Taylor as Vice President. Lot also includes a 1952 newspaper article on Lockheed Aircraft Corporation's Management Club dinner which honored "Old-Timers" from the pre-World War Lockheed Company, with Bert Rodman highlighted and photographed in the piece. The paper goes on to state that Rodman was President of the Loughhead Aircraft Manufacturing Company (the predecessor to Lockheed). The company went out of business in 1920, however was revived in 1926 by Allen Lockheed and John K. Northrop, eventually becoming the behemoth known today as Lockheed Martin. To summarize, lot includes: 1910 letter with autograph from Andrew Carnegie; An envelope addressed to B. R. Rodman with Taylor as the sender; Two letters on Western Machine and Foundry Company letterhead, written by Bert Rodman to Chas. Taylor; Two photographs of a Victory Liberty Loan medallion with Bert Rodman's name engraved as the recipient; Two copies of a photograph placed on cardstock (one of the men may be Rodman, but difficult to determine); And a photograph of an early plane (perhaps a Lockheed model). Unique lot of rare items with a fascinating and undisputable historical context. .... Est. **\$600-1200**

Conrad typed on Witter's personal letterhead regarding a tour and hunting trip of northern India with Indian Shikar & Tours, a service which Conrad had recommended previously. Dean G. Witter (August 2, 1887 – May 25, 1969) was an American businessman, stockbroker, and investor. With his brother Guy Witter and cousin Jean Witter, Dean Witter co-founded Dean Witter & Company in 1924, which became the largest investment house on the West Coast. In its early years, Dean Witter focused on dealing in municipal and corporate bonds. The company was highly successful in its first five years, purchasing a seat on the San Francisco Stock Exchange in 1928 and then opening an office in New York and purchasing a seat on the New York Stock Exchange in 1929. Although a relatively young company, Dean Witter survived Wall Street Crash of 1929 and the Great Depression, posting profits every year during the 1930s and into the 1940s. Dean Witter would lead his company until his death in 1969. In 1978 Dean Witter and Reynolds Securities merged to form Dean Witter Reynolds Organization Inc. **619 Letter from Thomas J. Watson to Willis K. Whitney Regarding George Eastman, 1931** Schenectady, NY, January 12, 1931 Society of the Genesee, Inc. Letter to Mr. Whitney (an American chemist and founder of the research laboratory of the General Electric Company) detailing a Society of the Genesee event honoring George Eastman and his contributions to film and celebrating his patents. Hand signed typed letter from Thomas Watson as president of the society. Thomas John Watson Sr. (1874 – 1956) was an American businessman. He served as the chairman and CEO of International Business Machines (IBM). He oversaw the company's growth into an international force from 1914 to 1956. Watson developed IBM's management style and corporate culture from John Henry Patterson's training at NCR. He turned the company into a highly-effective selling organization, based largely on punched card tabulating machines. A leading self-made industrialist, he was one of the richest men of his time and was called the world's greatest salesman when he died in 1956. The letter refers to an award dinner given to George Eastman, who was frequently approached to receive awards and honors that would have focused public attention on him, but invariably Eastman "escaped" these offers. His typical reply was this response to the Society of the Genesee, whose membership included most of his long-time friends and business associates: "I deeply appreciate the honor, and deeply regret that it is wholly impossible for me to accept such an invitation. ... I should be embarrassed beyond measure on such an occasion and do not feel that I could go through the ordeal." In April 1930, after Tom Watson took over as president of the Genesee Society, the salesman went to work and succeeded in convincing Eastman to attend. He wanted this great industrialist to receive the public recognition of his peers that he so richly deserved. The press documents that Watson made a personal trip to Rochester and "prevailed upon him [Mr. Eastman] to accept the honor" from the "twelve-hundred-member society." In June, the Society announced George Eastman's acceptance. The organization celebrated Watson's "noteworthy achievement" in overcoming Mr. Eastman's "ever-increasing desire to retire from the public eye," because everyone wanted to say thank you for the employment he had created locally, nationally and internationally, and acknowledge the estimated \$80 to \$100 million he had donated to worthy projects in his city, state, country and world. - 622 French Ministry of War 1791 Discharge Certificate** France, 1791. Discharge Certificate issued to Antoine Lafond (31 years of age) by the French War Commissioner, allowing him to leave his calvary regiment, the Royal Dragons (Dragoons). At top center is illustrated the French royal crest, and to the left is a red wax seal that is difficult to read and has some damage. The permanent discharge was approved by the commander of the Royal Dragoons regiment, David Maurice Champouliès de Barrau de Muratel (1742-1827), who later went on to become a general in the French Royal Army during the Revolution. This document is fascinating because it was issued in February of 1791, when the turmoil of the French Revolution was well underway. As Lafond was a member of the Royal Dragoons, and this document was approved by the Lieutenant General of the King's armies, it is possible that this regiment saw, or went on to see, some action against revolutionary forces in this period. Black vignette and text on brown border, allegorical woman in middle with small train passing on her right under curved title. Specimen overprints, POC's, ABNC. In 1901, the first known car to be made in Virginia was the Dawson Car, named for George Dawson, an Ohio machinist. Dawson set out from Cincinnati for Basic City (now Waynesboro), Virginia, via the Chesapeake and Ohio Railroad (C&O), in 1899. There, at the crossroads of the C&O and the Shenandoah Valley (later the Norfolk & Western) Railroad, he established a machine shop known as Dawson Manufacturing Company. While the railroads likely kept him in business, Dawson also decided to try his hand at building a steam-powered car. The Dawson Steam Auto-Mobile was a 2-cylinder runabout with single chain drive and tiller steering. The driver and one or two passengers could sit atop the bench seat; the engine was located beneath it. The car rode on wire-spoked wheels with white rubber tires. Its top speed was said to be somewhere between 25 and 30 mph, and its side brass lamps ensured that a driver could continue driving into the evening hours. After the first model was on the road and a proven success, Dawson tried advertising the car in an automotive trade journal — but there were no takers. Because he wanted to continue building a second car, eventually he sold the first to Luther Gaw (auto mechanic) and John Clark (barber) of Waynesboro, Virginia. While Dawson continued to try to get backing, Basic City's businessmen and bankers were not inclined to support the start-up car manufacturer. Discouraged and leaving his second incomplete car unsold, Dawson closed his business and returned to Cincinnati. Only 2 examples found in the ABN Archives. .... Est. \$250-500

Florida. \$1,000/225 Pounds Sterling Issued 5% Coupon Bond, Black print on ornate black border, Company title at top, Bond guaranteed by the State of Florida and signed by Governor, Richard K. Call on the reverse, VF-XF condition. James Van Norden. Richard Keith Call (October 24, 1792 – September 14, 1862) was an American attorney and politician, the 3rd and 5th territorial governor of Florida. Before that, he was elected to the Florida Territorial Council and as a delegate to the U.S. Congress from Florida. In the mid-1830s, he developed two plantations in Leon County, Florida, one of several thousand acres. In 1860 he held more than 120 slaves and was the third-largest slaveholder in the county. Richard Call came favorably to the attention of General Andrew Jackson, a leader during the war. In 1814, Call was commissioned as a first lieutenant and went to Florida to serve as Jackson's personal aide. He returned with General Jackson in 1821 to establish the territorial government after the United States acquired Florida from Spain by the Adams-Onís Treaty. After resigning from the Army in 1822, Call decided to make Florida his home and opened a legal practice. On March 16, 1836, he was appointed by President Andrew Jackson as the governor of the territory. During his first term, as brigadier general of the territorial militia, he led forces in fighting the Seminole Indians, winning victories at the second and third Battles of Wahoo Swamp in the Seminole War. President Martin Van Buren replaced him as governor with Robert R. Reid on December 2, 1839 following a dispute with Federal authorities over their assistance during the war. In the 1840 presidential campaign, Call crossed party lines to assist Whig William Henry Harrison, who won and appointed him again as governor of Florida. During this second term, which began on March 19, 1841, Call moved the territory closer to statehood. He worked to minimize the financial problems that Florida suffered due to bank failures and a national business depression. He left office on August 11, 1844. In 1845, Florida became a state and Call sought election as governor. His role in supporting the election of President Harrison caused him to lose..... Est. \$200-400

- 681 IOS Investment Program Specimen Certificate, ca.1960s Cornfeld & Vesco Scam Stock.** Switzerland, ND (ca. 1960s) Specimen Program Certificate, Black text with gray border and undertint, Eagle about to take flight in oval to left. Red specimen overprints, "00000" serial number, POC's and extended margins with perforations, VF condition, ABNC. Investors Overseas Services, Ltd. (IOS) was founded in 1955 by financier Bernard Cornfeld. The company was incorporated outside the United States with funds in Canada and headquartered in Geneva, Switzerland. In the 1960s, the company employed 25,000 people who sold 18 different mutual funds door-to-door all over Europe, operating mostly in Germany with small investors. The company mainly targeted American expatriates and U.S. servicemen who sought to avoid paying income tax. The mutual fund offerings by the company were called "people's capitalism" by founder Cornfeld. In the following decade, the company raised \$2.5 billion, due in part to its "Fund of Funds," which meant investment in shares of other IOS offerings. The offering was very popular in the bull market times, but then the market dropped and the guaranteed dividends had to be paid straight out of the capital—in effect, making it a pyramid scheme. IOS was forced into an Initial Public Offering to meet its costs. The next bear market made many investors cash their funds as stock value decreased. Share value decreased from \$18 to \$12 in the spring of 1970. Cornfeld formed an investment pool with some other investors, but they lost when the share value dropped to \$2. Even IOS employees and portfolio managers sold their shares by this time. Financier Robert Vesco who, at the time, was also in financial trouble, turned to Cornfeld and offered his help. - 767 Savings and Charity Fund of Monsieur Lafarge, 1791 Issued Certificate** France, 1791. Share or Bond Certificate for 90 Livres 1/2 to a woman in Paris in September of 1791. Black text with black border with a small medallion illustration at top center. The certificate has been filled out by hand, and includes several signatures on the front, including Lafarge's signature as General Director. Signatures are also on the back, with dates that likely correspond to dividend payments, near a faded administrative stamp. The Savings and Charity (also translated to Benevolent) Fund of Sir Lafarge functioned as a life annuity fund and savings bank, with the subsequent capital likely invested in national securities. When the French Revolution hit, the national finances of France collapsed, and the Fund passed out of existence, likely not long after this certificate was issued. Paris at the time would have been a tumultuous and dangerous place, with the Constitution of 1791 only having been passed earlier that very month. Significant events were still to follow, including the execution of Louis XVI and Marie Antoinette. Unique and fascinating glimpse into French Revolutionary and finance history, Very Rare. .... The Commercial Cable Company was founded in New York in 1884 by John William Mackay and James Gordon Bennett, Jr. Their motivation was to break the then virtual monopoly of Jay Gould on transatlantic telegraphy and bring down prices. The technology was well established by this time, and they were able to lay cables from Waterville in Ireland to Canso, Nova Scotia, without the major technical problems of the first Transatlantic telegraph cable. Onward connections to New York City and beyond were initially overland and later submarine. Connections from Waterville to Weston-super-Mare in England and Le Havre in France were soon established by the submarine route after initial use of landlines from Waterville onward to mainland Britain. Commercial Cable also had a relationship with the German Atlantic submarine cable system. Domestically the cable distributed its cable traffic through its partner firm the Postal Telegraph Company. It had a twenty-five percent share ownership in the Commercial Pacific Cable Company that operated a cable from San Francisco to Manila and Shanghai after 1906. Together these companies were all part of the Mackay Companies, also known as the Associated Companies. John Mackay's son, Clarence Mackay, took over the firm by the early 20th century and led it during World War I. Clarence Mackay and Frank Polk, a senior State Department official, were friends and this enabled the State Department to have access to selected diplomatic traffic carried over Commercial's cables. The company flourished for a time but in 1928, together with other elements of the Mackay System, came under the control of International Telephone and Telegraph (ITT) under a wholly owned subsidiary, the Postal Telegraph & Cable Corporation. This would be reorganized in 1935, with Commercial Cable becoming part of the American Cable and Radio Corporation. The undersea cables remained in use carrying telegraph traffic until 1962. In 1998, cables were briefly visible going out to sea at Waterville and are probably still there. .... Est. \$200-400

## CONDITIONS OF SALE

### THE PLACING OF A BID SHALL CONSTITUTE ACCEPTANCE OF THESE CONDITIONS OF SALE

#### BIDDING

1. Unless announced otherwise by the auctioneer, all bids are per lot, as numbered in the printed Catalogue. Archives International Auctions, as agent for the consignor or vendor, shall regulate the bidding and shall determine the manner in which the bidding shall be conducted. Archives International Auctions reserves the right to withdraw any lot prior to sale (without liability to any potential purchaser or agent), to re-offer any withdrawn lot, to divide a lot or to group two or more lots belonging to the same consignor or vendor, and to refuse any bid believed not made in good faith. Estimates of sales prices contained in the printed Catalogue reflect the best judgment of Archives International Auctions and are not minimum or upset prices.
2. (a) Bids shall be made in the steps set forth in paragraph 12.  
(b) The highest bid acknowledged by the auctioneer shall prevail. Should a dispute arise between bidders (including a dispute between a floor bidder and the auctioneer acting on behalf of a mail bidder, consignor or vendor), the auctioneer alone shall determine who the successful bidder is and whether to reoffer the lot in dispute. Should a dispute arise after the sale, the auctioneer's sale records shall be conclusive. On all lots sold, a commission of 20%\* on the hammer price is payable by the buyer to the auctioneer (\*See exceptions on next page for bids on internet).
3. (a) The auctioneer reserves the right to bid on behalf of clients (and consignors or vendors) but shall not be liable for errors and omissions in executing instructions to bid, however received, and whether such errors or omissions be those of the bidder or agent or those of the auctioneer.  
(b) Lots may be offered subject to a reserve price. The auctioneer may implement such reserve price by bidding on behalf of the consignor or vendor.  
(c) It may also be assumed that all consignors have been advanced monies against the sale of their consigned material and Archives International Auctions therefore has a security interest in the consigned material over and above the normal auction commission.  
(d) Purchases made by a consignor or vendor or his agent on his own lots shall be considered as a sale subject to commissions and sales tax as applicable.  
(e) Agents are responsible for the payment of the purchase price for all purchases made on behalf of their clients, unless other arrangements with the auctioneer have been confirmed in writing prior to the auction.

#### PAYMENT FOR PURCHASES

4. Payment for lots, including those on which opinions are desired (Condition of Sale 8), shall be as follows:
  - (a) Floor Bidders. Payment of the purchase price, or such part thereof as Archives International Auctions shall require, shall be made by the purchaser in cash or bank or certified check or in such other manner as Archives International Auctions may determine. The name and address of the purchaser of each lot shall be given to the auctioneer immediately following the sale of such lot.
  - (b) Mail Bidders. A successful mail bidder will be notified of lots purchased. Before Archives International Auctions will send such lots, payment in full must be received by Archives International Auctions within three (3) business days of receipt of the aforesaid notification by the mail bidder. However, a purchaser known to Archives International Auctions at its option may have purchases delivered or forwarded for immediate payment (by a dollar draft on a U.S. bank in the case of overseas purchasers). Mailed delivery will be to the address on the bid sheet and proof by Archives International Auctions of receipt of a sending at the advised address shall constitute delivery. All charges for handling, delivery and insurance obtained by Archives International Auctions on behalf of the purchaser shall be added to the purchase price; a minimum charge of \$10.00 will be made. Risk of loss in transit shall be on the purchaser.
5. Title shall not pass to the purchaser until full payment has been received by Archives International Auctions as agents for the consignor or vendor.

6. (a) Purchasers agree to pay for lots as specified in Condition of Sale 4 (or as the same may be modified by Condition of Sale 8 and no credit is extended; a late payment charge of 2% per month or fraction thereof shall be added if payment is not made in accordance with the aforesaid conditions).  
(b) In the event that a bidder shall fail to comply with these Conditions of Sale ("Non-Complying Bidder"), then, as to any lot with respect to which such failure to comply occurs, Archives International Auctions may, in its sole discretion, re-offer such lot during the same auction or at an auction at a later time, or by private treaty at such time as Archives International Auctions, in its sole discretion, deems appropriate and the Non-Complying Bidder shall be liable for the deficiency, if any, between the hammer price and the net proceeds of a sale to a subsequent purchaser whether at auction or by private treaty, as well as for all costs and expenses of both sales, all other charges due thereunder including commissions with respect to both sales, whether payable to Archives International Auctions or to a third party and all incidental damages. It shall be in Archives International Auctions' sole discretion to determine whether to re-offer the lot theretofore hammered-down to a Non-Complying Bidder at the same auction, or by private treaty in due course, or at a subsequent auction conducted by Archives International Auctions. In no event shall any surplus arising from the sale of a re-offered lot be payable to a Non-Complying Bidder.  
(c) A defaulting purchaser shall be deemed to have granted Archives International Auctions a security interest in property in Archives International Auctions possession owned by such purchaser. Archives International Auctions shall have all of the rights afforded a purchase money secured party under the New York or New Jersey Uniform Commercial Code with respect to such property and may apply against such obligations all monies held or received by it for the account of, or due from Archives International Auctions to such purchaser. Archives International Auctions is authorized to file a Financing Statement in order to perfect its rights as a secured party.  
(d) If Archives International Auctions takes any legal steps to secure payment of a delinquent account, the defaulting purchaser shall be liable for all legal and other expenses incurred by Archives International Auctions to secure such payment, including but not limited to a reasonable allowance for attorneys' fees. For purposes of this paragraph, the term legal steps shall be deemed to include any and all consultation by Archives International Auctions with its attorneys with respect to all matters arising out of delinquent account.  
(e) Unless otherwise acceptable to Archives International Auctions, payment is to be made only in the form of cash, bank check or certified check, credit card (Visa or MasterCard only) or a bank wire transfer.

#### EXHIBITION AND INSPECTION OF LOTS; QUALITY AND AUTHENTICITY

7. (a) On Premises Inspection only. Ample opportunity is given for on premises inspection prior to the auction date, and, upon written request and at Archives International Auctions discretion.  
(b) Each lot is sold as genuine and correctly described, based on individual description as modified by any specific notations in the Catalogue.  
(c) Quality. Any lot which a purchaser considers to be incorrectly described may be returned to Archives International Auctions within two weeks of its receipt by such purchaser ("Returning Purchaser"), provided, however, that the same is received by Archives International Auctions within four weeks of the date of the auction; however, Archives International Auctions may, in its discretion, refuse acceptance of such returned lot. If an opinion of a generally recognized authority is desired, the period of time within which a lot must be received by Archives International Auctions will be extended in accordance with Condition of Sale 8. In the event that a dispute cannot be resolved by reference to a generally recognized authority, and Archives International Auctions thereupon undertakes to re-offer the lot with a description identical to the description disputed, the Returning Purchaser shall be liable for the deficiency, if any, between the proceeds of the sale to the Returning Purchaser and the proceeds of a sale to a subsequent purchaser, as well as for all costs and expense of the re-sale, including commission, and all incidental damages. Any lot, the description of which is disputed, must be returned in

(e) Expenses incurred a purchaser in the submission and the return of a lot under Conditions of Sale 7 are not subject to refund.

8. Unless presentation of satisfactory proof that it is exempted by law, a purchaser shall pay to Archives International Auctions New Jersey or New York State and local sales taxes, or any compensating use taxes of any other State claiming jurisdiction.
